SIMULATED DETECTIVE REPORT – EDUCATIONAL USE ONLY

City of Monterey, CA Police Department
Detective Investigation Status Report

Date	10 December 2009
Time	09:30 AM
Affiant	Detective Joe Friday
Case Number	MT-2009-12-015
Report Number	002

Summary
Kitty exploitation found on computer, investigation proceeding.

Cause for Action
Forensic tech identified several known kitty exploitation videos and images on the recovered computer (MT-2009-12-015-EV001), and a possible owner. Based on the data recovered from the computer, we believe that the original owner of the computer was a local company, called M57 Patents. The user of the computer was named Jo (no last name available).

Action Taken
Further investigation is necessary to determine if Jo was the owner of the files, and to determine if any further incriminating evidence is available. From business records, we have determined that the owner of the company is Pat McGoo. We are considering contacting McGoo, rather than pursuing a warrant.

Outcome
Discussion with Chief of Detectives about contacting McGoo and pursuing a voluntary search.
